

Small scrubber wet process, dry process combination type

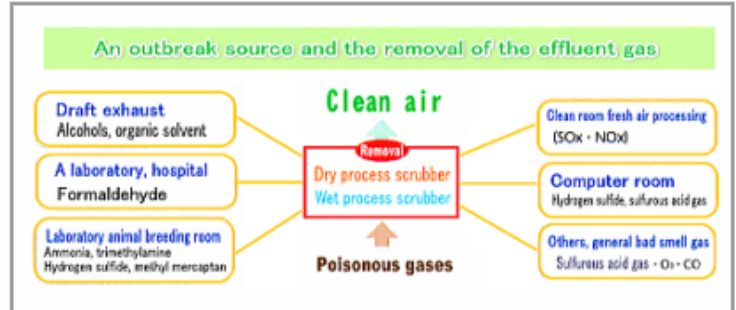

Super clean SK-3 type

Wet process, Dry process Combination type

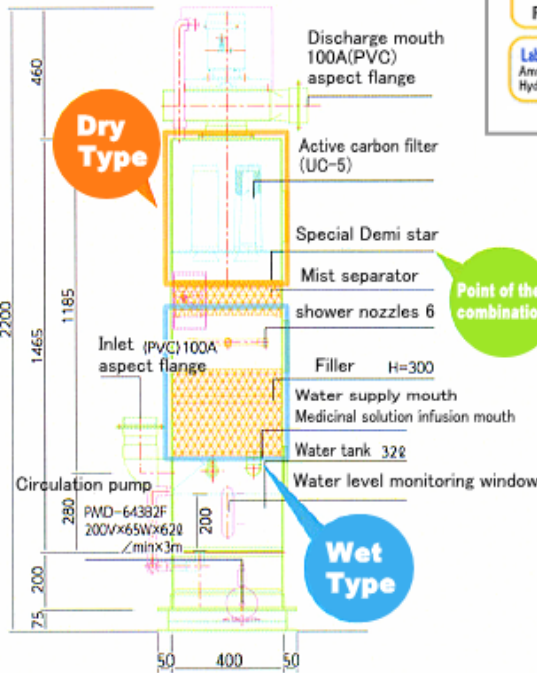

400 × 400 × 2200mm 1
 Main body materials : Hard vinyl chloride board 5t ivory
 Quantity of wind : 3m³/min
 Static pressure in : 350Pa Wet process Dry process the plane

Chemical fan 400W (200V) 1
 Circulation pump 65W (200V) 1
 Active carbon UC-5 1set

By the installation of the special Demi star of the departure from industry combination is possible (wet process, dry process)! I remove effluent gas by double purification efficiently.

SK-3 type (3m³/min)

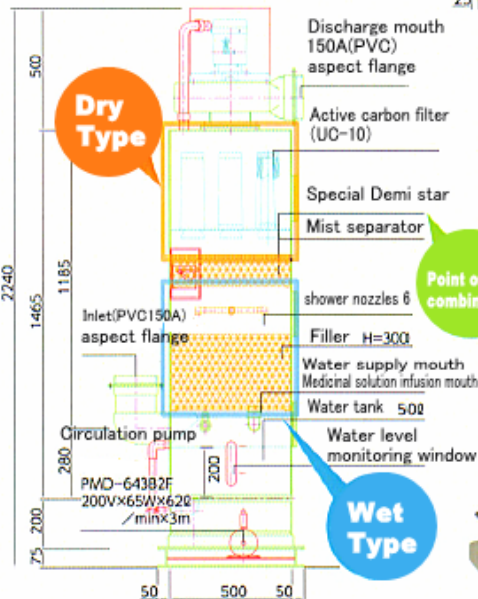

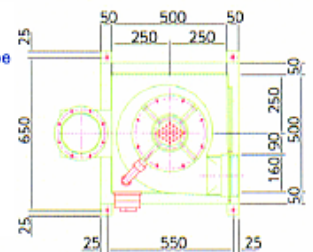

Super clean SK-10 type

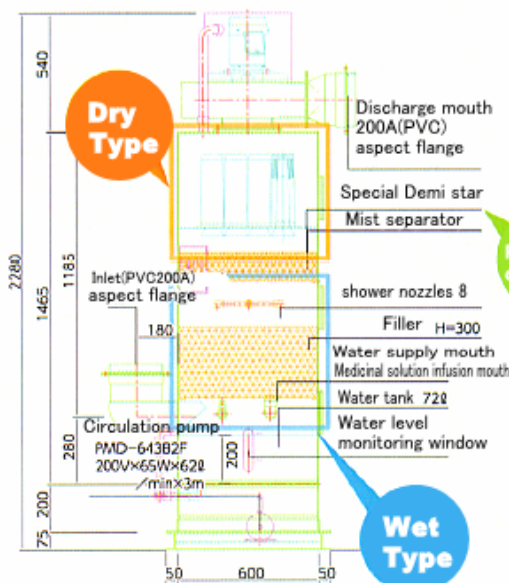

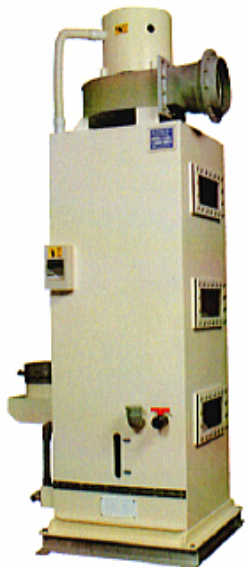

Wet process, Dry process Combination type

500 × 500 × 2240mm 1
 Main body materials : Hard vinyl chloride board 5t ivory
 Quantity of wind : 10 m³/min
 Static pressure in : 350Pa Wet process Dry process the plane

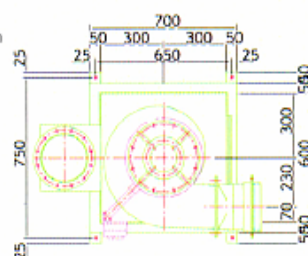

Chemical fan 450W (200V) 1
 Circulation pump 65W (200V) 1
 Active carbon UC-10 1set

SK-20 type (20m³/min)

SK-10 type (10m³/min)

Super clean SK-20 type

Wet process, Dry process Combination type

600 × 600 × 2280mm 1
 Main body materials : Hard vinyl chloride board 5t ivory
 Quantity of wind : 20 m³/min
 Static pressure in : 350Pa Wet process Dry process the plane

Chemical fan 750W (200V) 1
 Circulation pump 65W (200V) 1
 Active carbon UC-20 1set
